

# Drug seminar being planned

An approximate 10-week social seminar course on drug abuse was outlined at a meeting of 26 persons in Dover High Monday night on drug use and abuse.

John Patterson, education specialist of Self-Help, Alternatives, Growth and Youth Services (SHAGYS), is preparing the 32-hour seminar package and is asking that anyone in Dover who is interested to contact him immediately.

Patterson said the seminar, sponsored by the Dover board of education, will consist of films and exercises designed to stimulate discussion in a small-group atmosphere. The problems to be explored and action to be taken will be limited to Dover.

The seminar will be held weekly for about 10 weeks on Tuesday nights beginning Feb. 3. Patterson said anyone seriously interested should plan to attend all sessions.

The seminar group is to be limited to 30 persons and there is no charge. Patterson can be reached at SHAGYS, 125 Fair av. NE, New Philadelphia, or by calling 343-7216.
