

# Board member on target

To the Editor:

My congratulations to Mrs. Isabel Moore. She has put her finger directly on the crux of the school problem. At last the taxpayer has an elected official who has found the reason behind the failure of the school levies all over Ohio.

She has the answer to what the taxpayer has been searching for — to do the best, for as long as possible, with the funds available.

I sincerely hope she is able to get this message across to the remainder of the school board. Hers is an opinion to admire.

However, a reference made in the paper on Nov. 21 by a school official, which compares 3 mills to a pack of cigarettes, seems to be in direct conflict.
