HOW THE TIEBREAKER WORKS

20 YARDLINE OVERTIME PROCEDURE

When the score is tied at the end of the fourth quarter, the referee will instruct both teams to return to their respective team boxes. There will be a three-minute intermission during which both teams may confer with their coaches. All officials will assemble at the 50 yardline, review the procedure and determine the number of time-outs remaining for each team. The head linesman will go to the team on the side of the field where the line-to-gain equipment is located, and the field judge to the other team, to inform the coaches of the number of time-outs each team has remaining and escort the respective team captains to the center of the field for the coin toss. The visiting team captain shall be given the privilege of calling the coin while it is in the air. The winner of the toss shall be given his choice of defense or offense, or to which end of the field the ball will be put in play.

Each team shall be permitted one additional time-out for each extra period plus any unused second half time-outs. The team scoring the greater number of points in the overtime shall be declared the winner. The final score shall be determined by totaling all points scored by each team during the regulation and overtime periods.

To start the overtime, the offensive team shall put the ball in play, first and ten on B's 20 yardline. Play will commence with a snap and all game rules will apply except for timing the game and the try will not be made when it is not required to break the tie. A's possession shall terminate after any score by A or if B has possession at the end of any down. Team A shall be awarded a new series when: (a) the penalty for defensive pass interference is accepted; or (b) there is a change of team possession during the down and the ball belongs to A at the end of the down; or (c) team A recovers a scrimmage-kick (field-goal attempt) between the goal lines after it has been touched first by B beyond the neutral zone; or (d) team A is awarded a new series of four downs due to advancing the ball beyond the line-to-gain; or (e) team A accepts the penalty for roughing the kicker or holder by B.

If team A scores a touchdown, it is entitled to the opportunity to try for point; except when it is unnecessary to break the tie. A field-goal attempt is permitted during any down. If the defensive team gains possession by recovering a fumble or intercepting a pass, the ball remains alive until that down is ended. This provides team B the opportunity to score following a recovery or interception.

After team A has completed its series, team B will become the offensive team with the ball in its possession at the 20 yardline. The same end of the field will be used for both possessions in order to insure equal game conditions and conserve time.

If the score remains tied after each team has been given one series, the procedure shall be repeated until a winner is determined. There will be an intermission of two minutes during which the loser of the coin-toss will be given first choice of the options. If additional periods are required, first choice of options will be alternated.

INTERPRETATIONS

1. Play: With third and goal on B's 4 yardline, B1 interferes during forward pass. **Ruling:** If the penalty were accepted it will be first and goal for A from B's 2 yardline.

2. Play: Third down for B's 6 yardline. A1 fumbles and it is recovered by B1 on his 2 yardline, B1 attempts to advance but fumbles and it is recovered by A2 on B's 4 yardline. **Ruling:** A's ball first and goal from B's 4.

3. Play: On second down, a forward pass by A1 is intercepted by B1 in the end zone and during his attempted advance, he fumbles. The ball is fumbled out-of-bounds over the end line. **Ruling:** Touchback which ends the series for A. Team B will next put the ball in play, first and ten from the 20 yardline.

4. Play: On first down, A1 fumbles and it is recovered at the 5 by B1 who advances to the 40 yardline where he fumbles. A2 recovers the fumble by B1 at B's 35 yardline. **Ruling:** First and ten for Team A from B's 35.

5. Play: On second down A1 fumbles at B's 4. B1 recovers at the 2 and retreats into his end zone where he is downed. **Ruling: Safety.** Award 2 points to A after which B will put the ball in play on the 20 yardline, first and ten.

6. Play: On 4th down, A1 fumbles and the ball is recovered by B1 at the 5 and he advances 90 yards to A's 5 yardline where he fumbles into the end zone. A2 recovers and is downed there. **Ruling:** Touchback. Team A will next put the ball in play first and ten from its own 20 yardline.

7. Play: At the end of regulation time, the score is tied 7-7. It was previously announced the recommended tie-breaking procedure would be followed. Immediately after the last down of the fourth period, A1 strikes B1. **Ruling:** A1 will be disqualified and may not participate during the overtime period. The penalty will be administered on the succeeding down. If B were first to put the ball in play, it will be from the 10 yardline and if A puts the ball in play first, it will be from the 35, first and ten.

8. Play: When the game results in a tie, the teams use the recommended tie-breaking procedure. Team A wins the toss and elects to take the ball. A1 scores on the 3rd down. After A1 crossed B's goal line; (a) A2 clips B1; or (b) B1 strikes A2. **Ruling:** It is ball foul in both (a) and (b). The score counts and Team A may attempt to try for points from B's 3 yardline. In (a) the ball will be awarded to B, first and ten from the 10 yardline. In (b) it will be B's ball, first and ten from A's 35 yardline.

9. Play: With the score B-14 and A-8, a pass from A1 is complete to A2 in B's end zone. During the down there was holding by B2. This was the last play during the 4th quarter. The try by field-goal is blocked and the game ends in a tie. Will the penalty for the defensive team foul during the touchdown be administered during the first series of the 10 Yardline Overtime Procedure? **Ruling:** Yes, the overtime period is an extension of the game. Rule 10-5-3 provides, when the game ends in an overtime, the penalty for foul by the defensive team during the down which results in a successful field-goal or touchdown will be administered from the succeeding spot.

10. Play: During the last timed down of the 4th quarter, A1 advances for a touchdown making the score B-22 and A-20. On the try, A2 passes complete to A3 in the end zone and there is defensive pass interference. It was previously agreed, the 20 Yardline Procedure would be used to break a tie. **Ruling:** The penalty for the foul by the defensive team during the successful try will be administered from the succeeding spot.

Comment: In situations 9 and 10, the referee should explain to the captains at the time of the coin toss, the fact the penalty will be administered on the first series of the overtime. The place from where the ball will be put in play for each team will have an effect upon the choice made by the winner of the toss.
