ALL-TIME STATE INTERSCHOLASTIC TRACK AND FIELD RECORDS

The Ohio High School Athletic Association and its member schools conduct track and field according to the rules adopted by the National Federation of State High School Associations. In track and field, there is considerable interest in all-time records in the various events.

The National Federation Track and Field Rules — Rule 10 — require that certain minimum criteria must be met in order for a record to be accepted. The application for a record must be submitted to the OHSAA on a National Federation Record Application Form within six months of the event. If this requirement is not met, the record will not be recognized.

The OHSAA does maintain all-time records for girls and boys in Class A, AA, and AAA. The records listed below are those regardless of class and only in the events competed in the state track and field meet.

STATE INTERSCHOLASTIC TRACK AND FIELD RECORDS

High school track and field in Ohio is conducted in accordance with rules written by the National Federation of High School Associations and adopted by the Ohio High School Athletic Association Board of Control.

In order for a track or field mark to be approved as the official record, the provisions as specified in the National Federation Track and Field Rule 10 must be satisfied. Rule 10-1-1 sets the requirements:

"Art. 1 . . . All applications for state or national records must be made on printed forms available from the state association or National Federation office. In order to receive consideration by the rules committee, the performance must have been made in a meet:

1. Sanctioned by a state high school association;
2. Involving five or more schools; and
3. In an event limited to high school contestants.

The application for record must be received within six months from the date of performance."

Record application forms are available from the OHSAA office and must be filed at the OHSAA office within six months in order to be considered.

The simple reporting of an outstanding effort to the news media will not suffice for the athlete to receive record consideration.

The records listed below are the **official** State of Ohio Interscholastic Track and Field records. Any other listing is unofficial for high school track and field and should be so recognized by all those interested in track and field.
